

MRIDUL KHURANA

mridul@vt.edu | +1 (540) 449-6886

EDUCATION

Virginia Tech

Aug 2022 – May 2027

PhD. in Computer Science, *Advisor: Dr. Anuj Karpatne* GPA 4.0/4.0

Blacksburg, Virginia

Courses: Computer Vision (CV), Natural Language Processing (NLP), Deep Reinforcement Learning (RL), Adv Machine Learning

Graduate Teaching Assistant: Natural Language Processing, Social Media Analytics

Delhi Technological University

Aug 2015 - May 2019

Bachelor of Technology (B.Tech.), Electrical Engineering

New Delhi, India

RESEARCH INTERESTS

My research focuses on multimodal image and video diffusion models for scientific domains, using personalized & structure aware conditioning with taxonomies, environmental data, & DNA barcodes to enable fine-grained & long-tail generation.

PROFESSIONAL EXPERIENCE

Apple

Seattle, WA

Research Intern

May 2026-Present

- Developing multimodal **photorealistic image-editing** models with large-scale edit datasets and evaluation pipelines.

Advanced Micro Devices (AMD)

San Jose, CA

Research Intern

Jan 2025 – May 2025

- LLM optimization** using sparsity-aware **quantization (SpQR)** of **Llama-3, Qwen, Falcon**, etc for near-lossless inference.
- Extended **AMD** Quark quantization capabilities to **Mixed-Precision** using SpQR and improving over **GPTQ** using **ROCm**.

Knowledge-guided ML and CV Lab, Virginia Tech

Blacksburg, VA

Graduate Research Assistant | Advisor: Dr. Anuj Karpatne

Aug 2022 – Present

- Developing **text-to-video diffusion** models with **identity preserving** & animal species-level fidelity using **curriculum training**
- Integrating **Sparse Autoencoders (SAE)** on text-conditioning for building interpretable **diffusion** models.
- Progressive training of **Text-to-Image models** for **Fine-Grained generation** for **long-tailed** distributions. (**ICCV'25**)
- Hierarchical** conditioning of **Stable Diffusion** with **graphs** for accelerating scientific discoveries (**ECCV'24**).
- Collaborated in designing an **automated data processing pipeline** using large visual and multimodal models like **Grounding DINO** and Segment Anything (**SAM**) for an **attribute identification** and **visual segmentation** dataset (**CVPR'25**)
- Multimodal scientific benchmark dataset** for Vision Language Models (VLMs) including **GPT-4o**, LLaVa, BLIP (**NeurIPS'24**)

Theremin.ai (Quant startup, acquired by QiCAP.ai)

Mumbai, India

Software Engineer

May 2020 - July 2022

- Designed and built a **Trading Platform (OMS)** handling over **\$10 Million** in Indian stock markets. Mentoring **2 interns**.
- Achieved a **15x increase** in data volume to support **1,500 securities**, deploying **event-driven trading** framework on **AWS**.

Fractal Analytics

Mumbai, India

Software Engineer

June 2019 – Apr 2020

- Built ML models with **10,000+ variables** reducing dimensionality by **97%** using **PCA**, variable binning & **clustering**.
- Used **Random Forest** and **CNNs**, achieving **10% increase** on an F1 score from previous models.

Vision and AI Lab (VAL), IISc Bangalore

Bangalore, India

Research Intern | Advisor: Dr. R. Venkatesh Babu

May 2018 – July 2018

- Built **monocular depth estimation** pipelines for indoor/outdoor scenes using FCRN and **self-supervised L-R consistency**.
- Added fovea transformations to depth estimation pipeline, improving KITTI *abs./sq. relative errors* by **0.7%/2%**.

PROJECTS

Mitigating Simple and Adversarial Attacks on Vision Language Models (VLMs)

[GitHub](#)

Feb 2024 - May 2024

- Proposed **Visual Latent Smoothing** enhancing robustness of LLaVa against **adversarial** attacks by **9% & 4%** on MCQA.

INVITED TALKS AND AWARDS

- Outstanding Reviewer** for **CVPR 2026**
- Tree-of-Life Meets AI:** Knowledge-guided Generative Models, hosted by Voxel51, Nov. 2024
- Received **Travel Award** from CS Department, Virginia Tech for attending ECCV 2024.
- Taekwondo:** State level **Gold medalist**, India. **Music:** Certified **Grade 2** drummer, RockschooL, **Trinity College of London**.

PROFESSIONAL SERVICE

- **Reviewer** for ICLR 2026, 2025; ICML 2026; CVPR 2026; ECCV 2026; NeurIPS 2025, 2024, 2023 Workshops; ICML 2025 Workshops; AAAI 2024-2025 Workshops.
- **Organizer**: CV4Ecology workshop at ECCV 2026
- **Program Committee Member**: Imageomics Workshop at NeurIPS 2025, AAAI 2025 and AAAI 2024.

TECHNICAL SKILLS

- **Programming Languages**: Python, C++, Shell Scripting, SQL, NoSQL, Git, MATLAB
- **Technologies**: PyTorch, HuggingFace, vLLM, Tensorflow, AWS, Docker, OpenCV, Scikit-learn, WandB, MongoDB
